

The Norwegian Society for Immunology (NSI)
welcomes you to:

The Day of Immunology conference 2017

Immunterapi mot kreft / Immunotherapy for Cancer

Tuesday, April 25, 2017, 10:30-15:40

Store Auditorium, Rikshospitalet, Sognsvannsveien 20, Oslo

The 2017 NSI Day of Immunology is sponsored by:

Official patrons of the Norwegian Society for Immunology:

Morning session (populærvitenskapelige foredrag på norsk)

10.00: Velkomstkaffe

10.30: Velkommen – Kort om kreftbehandlingens historie og litt om immunterapi...
Elisabeth Authen Sethre, seksjonssjef for forskning, Kreftforeningen.

10.45: Hvordan fungerer immunsystemet egentlig?
Inger Øynebråten, Forsker, avdeling for patologi, Oslo universitetssykehus.

11.10: NK-celler i kreftterapi
Erik Dissen, professor, avdeling for molekylærmedisin, UiO.

11.35: Immunterapi mot kreft: Gjennombruddet og veien videre
Jon Amund Kyte, overlege, OUS Radiumhospitalet.

12.00: Lunch break with wraps

Afternoon session (scientific presentations made accessible for a broad public in English)

13.00: Opening

13.05: Cancer therapy combining immune checkpoint inhibitors with immunogenic chemo- or radiotherapy
Jon Amund Kyte, MD, PhD, OUS Radiumhospitalet.

13.30: Cellular cancer therapy
Else Marit Inderberg, PhD, avdeling for celleterapi, OUS Radiumhospitalet.

13.55: How CD4⁺ T cells reject tumor cells
Bjarne Bogen, MD, PhD, Professor, Dept of Immunology, OUS Rikshospitalet.

14.20: Coffee break

14.50: Harnessing Adaptive Natural Killer Cells in Cancer Immunotherapy
Karl-Johan Malmberg, MD, PhD, Professor, Dept of Cancer Immunology, OUS Radiumhospitalet.

15.15: From NK to T-cell, a microscopical approach
Pierre Dillard, PhD, avdeling for celleterapi, OUS Radiumhospitalet.

Chairperson: Alexandre Corthay, PhD, Department of Pathology, OUS, NSI president.

Free entrance. Everybody is welcome! But note that there are a limited number of seats.
