

**Program**  
**The 32nd Annual Meeting and General Assembly**  
**Thursday November 13th 2014**

- 11:00 NSI Honorary Member Lecture**  
Per Brandtzæg, Department of Pathology, OUS  
*The advent of immunological research in Norway and NSI as a catalyst*
- 11:45 NSI Main Lecture**  
Prof. Chiara Romagnani, Deutsches Rheuma-Forschungszentrum Berlin  
*Activation and differentiation of ILC3*
- 12:30 Lunch (wraps and refreshments served outside the auditorium)
- 13:00 National NSI Speakers**  
*Chair: Kishan K Chudasama*
- 13:00 Kristin Fenton, Department of Medical Biology, University of Tromsø  
*Lupus nephritis: from mesangial cell activation to development of tertiary lymphoid structures*
- 13:30 Jan Terje Andersen, Department of Immunology, Oslo University Hospital  
*Intracellular antibody sensing in the battle against infection*
- 14:00 Peter Mydel, Department of Clinical Science, University of Bergen  
*Post-translational modifications as a modulator of immune responses*
- 14:30 Coffee break
- 14:45 Abstract session I**  
*Chair: Tor Espen Bendvold*
- 14:45 Vincent Oei, Institute for Cancer Research, OUS - Radiumhospitalet  
Selective Expansion of Educated NK cells for Cancer Therapy
- 15:00 Johanna Hol, Department of Pathology, OUS - Rikshospitalet  
Inhibition of endothelial Notch signaling attenuates inflammation
- 15:15 Ana Kucera, Department of Biosciences, University of Oslo  
Invariant chain as a vaccination vehicle for loading of MHC I
- 15:30 Dong Wang, Department of Immunology, OUS - Rikshospitalet  
Autologous bone marrow Th cells can support multiple myeloma cell proliferation in vitro and in vivo
- 15:45 Coffee break with refreshments
- 16:00 Abstract session II**  
*Chair: Ole Jørgen Bjarnason Landsverk*
- 16:00 Kanutte Huse, Institute for Cancer Research, OUS - Radiumhospitalet  
Deep profiling of human germinal center B cells by mass cytometry and phospho flow cytometry.
- 16:15 Øyvind Steinsbø, Department of Immunology, OUS - Rikshospitalet  
Binding motifs of gluten-specific antibodies in coeliac disease
- 16:30 Branislava Stankovic, Department of Pathology, OUS -Rikshospitalet  
Immune Cell Composition in Human Non-Small Cell Lung Cancer
- 16:45 Elisabeth Gyllensten Bjørnsen, Institute of Basic Medical Sciences, University of Oslo  
B7H6 is a ligand for the activating NK cell receptor NKp30 in cattle
- 17:00 NSI General Assembly** (followed by poster session @ 17.30, and dinner @ 19.00)
